

BRIGHT IDEAS

Bodine's New RCT™ Module

An easy testing option from Bodine. With Bodine's **RCT™ Module** for retrofit applications, select Bodine emergency/backup ballasts can be tested from up to 32 feet away. No ladders or other extension devices are needed. End-users simply **point-click-test**, making the RCT Module ideal for difficult-to-access fixtures.

The RCT Module, as with other RCT products, is operated by the WHRCT remote control transmitter. Two modules are available and can be used with a wide variety of emergency/backup ballasts. Go to www.bodine.com for more information.

Lighting Design Software Engineered for Productivity

Visual® by AcuityBrands™ Lighting is a collection of lighting calculation tools and powerful 3D modeling software engineered to simplify the design process and provide comprehensive analysis for lighting projects.

The Basic Edition is lighting design software with an intuitive interface for fundamental viewing, editing and printing capabilities. The Basic Edition incorporated the Lumen Method Tool to quickly design and analyze simple interior lighting to product uniform horizontal illuminance.

The Professional Edition is targeted at those wishing to develop and document lighting designs for exterior and complex interior applications (e.g., irregular geometry, sloped surfaces, obstructions, etc.). The Professional Edition is a unique, powerful extension of your own design process. Flexible and intuitive, it enables you to develop, analyze and modify lighting designs faster and easier than ever before.

KLI is known as the premiere lighting manufacturer's representative in Hawaii since 1976. In general, we promote our lighting manufacturers through Architects, Engineers and Designers and distribute through wholesale electrical houses.

KLI was originally incorporated in 1976 under the name KLOPFENSTEIN'S and operated out of a house in Hawaii Kai. In December of 1987 we moved our operations into our present location on Nuuanu Ave in Downtown Honolulu. In 1997 we reincorporated as KLOPFENSTEIN'S LIGHTING INC (KLI).

Our primary purpose is to provide the best product for your application with efficient service for all your needs.
