New From Ledalite Vectra

Vectra™ combines distinctive styling with the perfect blend of brightness, control and energy efficiency. Using Ledalite's revolutionary MesoOptics® technology to purify and control light, Vectra brings the best of nature's luminous aesthetics to indoor environments. Pure, comfortable brightness is evenly distributed throughout the space with exceptional glare control and unprecedented energy efficiency - making happier people and healthier environments. MesoOptics® technology enables superior visual comfort by delivering uniform brightness with exceptional lighting control.

Featuring highly unique luminous aesthetics, Vectra™ blends in well with many architectural ceiling types and can be arranged in traditional grid patterns or continuous rows. Suitable for a wide-range of applications, Vectra™ is available in 2x2, 2x4 and 1x4 housing sizes and a range of lamping options including TT5, T5, T5HO and T8.
